

Online Security Tips

Create Strong Passwords

Use passwords that are hard to guess, and keep track of them using a password manager

Use Caution Downloading

Don't download content from sites that are not trustworthy, these often contain malware

Privacy Settings

Take control of how companies use your data by enabling privacy features

Think Before You Post

Avoid posting sensitive personal information online. Don't share too much information either!

Anti-Virus

Keep your anti-virus software updated so it can detect potential threats on your system
